

SENATORS SCORE NEUTRALITY LAW

Present Revolt in Mexico Is Subject of Discussion.

ATTACKS EXISTING POLICY

Senator Fall of New Mexico Asks for Repeal of Neutrality Resolution of the Last Congress—Senator Bacon Says Solution of Mexican Situation Lies in White Men of the Republic Taking Up Arms to Establish Order.

Washington, June 28.—A change in the attitude of the United States toward the warring factions in Mexico was urged in the senate, with the result that the foreign relations committee of that body is to take up the question immediately.

Senator Fall of New Mexico attacked the present policy and asked for the repeal of the so-called "neutrality" resolution of the last congress.

Under this authority, he said, arms were permitted to go across the border to the Huerta faction, but were prevented by the armed forces of the United States from going to the factions opposed to Huerta.

Senator Fall praised the Wilson administration for refusing to recognize what he termed the "assassins of the president of Mexico" as the established government in the republic.

His speech brought a response from Senator Bacon, chairman of the foreign relations committee, that was regarded by some as voicing the attitude of the administration.

Senator Bacon said the solution for the present difficulties in Mexico lay in the white men of the republic, constituting the educated classes, taking up arms to establish order.

For the United States to attempt to protect her citizens by arms in Mexico meant intervention and occupation probably for all time, he said.

Senator Smith of Arizona in the debate which followed advocated the United States taking possession of Lower California in compensation for Americans killed and American property destroyed in Mexico.

Senator Williams joined in urging the repeal of the "neutrality" resolution. Senator Bacon assured the senate the committee would soon consider the question.

PRESIDENT POSTPONES TRIP

Wilson Is Busy With Union Pacific Merger Disposition.

Washington, June 28.—President Wilson brushed aside all plans for a week's trip to Cornish, N. H., the summer capital, to examine immediately the tentative agreement reached between Attorney General McReynolds and the railroad attorneys for the dissolution of the Union Pacific merger, to prevent, if possible, the great railroad combination from being thrown into the hands of a receiver.

Unless a method of dismembering the Union Pacific and Southern Pacific satisfactory to the judges of the United States court for the Eighth circuit is submitted by July 1 the United States supreme court has ordered the dissolution of the merger by government receivership.

A supreme effort is being made by the president and attorney general to prevent this drastic alternative by an agreement on a plan adequate to meet the demands of the Sherman anti-trust law and the mandate of the supreme court.

TARIFF BILL IS DELAYED

Work in Senate Impedes Progress of Caucus.

Washington, June 28.—Work in the senate delayed the Democrats of that body in their party conference deliberations on the tariff bill.

When the caucus resumed its sessions it took up again the fight over features of the agricultural products schedule. A demand had been made that all articles be put upon a penalty basis so that the president could have a tariff weapon to use against countries discriminating against the United States.

House Leader Underwood talked briefly with senators over the tariff situation.

Democratic leaders were not able to predict, however, when the bill would be finished by the caucus and prepared for debate before the full senate.

Wielding the axe again for the benefit of the household the senate Democratic caucus determined to put cotton sewing thread on the free list.

Too True.

After our landlord had pocketed the \$30 which we pay monthly for our little apartment he blushed pathetically.

"Why do you color so?" I asked.

"Because I have a rent in my trousers," he murmured.—Exchange.

Denied Credit, Kills Grocer.

Winnipeg, June 27.—J. J. Horrigan, a merchant of Rush Lake, Sask., east of Swift Current, on the main line of the Canadian Pacific, was shot dead by a homesteader, Michael Lovinsky, whose appeals for credit for groceries had been refused.

OIL EXPLOSION FATAL TO FIVE

Six Other Persons Injured and a Dozen Missing.

ACCIDENT ON TANK STEAMER

Two Hundred Tons of Fuel Oil Are Ignited by What Is Believed to Have Been Carelessness of a Machinist's Helper in Carrying Lighted Candle Into the Hold.

New York, June 28.—Two hundred tons of fuel oil on board the steel tank steamer Mohawk, owned by the Standard Oil company, exploded with a terrific roar and a burst of flame while the vessel was at anchor off Tompkinsville, Staten Island, in New York bay, killing five persons and injuring six others.

A dozen more are unaccounted for, but are believed to have been rescued. Two bodies were seen floating in the hold while fireboats were still pouring streams of water into the wrecked steamer. The other three victims probably were blown to pieces.

Carelessness of a machinist's helper was reported to have caused the explosion. Fifty men, including the crew and twenty machinists, who were making repairs preparatory to the Mohawk's departure for Tuxpam, Mex., were on board.

A helper was declared to have dropped a washer into the hold below the fire room. Seeking to recover it he is believed to have carried a lighted candle, which caused combustion among gases generated in the hold.

The explosion was heard for many miles. A 200-foot flash of flame, a column of smoke, the detonation, a volcano of debris and the Mohawk settled aft, while fireboats, wrecking tugs and other harbor craft hurried to the scene from all directions.

A score of men who were blown overboard were rescued unhurt from the water. Others clung to stanchions and rails or huddled in the bow, whence they were dragged to safety on boats.

EXPOSES MUNICIPAL GRAFT

Former Alderman at East St. Louis Admits Bribery.

St. Louis, June 28.—An investigation into alleged municipal irregularities in East St. Louis, Ill., culminated in the publication of a sworn confession of bribery made by Joseph A. Fansler, a former member of the East St. Louis city council.

The confession was made in the presence of Charles Webb, state's attorney of St. Clair county, Illinois, and Curtis A. Betts, a reporter, and was sworn to before a notary public.

The confession of Fansler details two alleged acts of bribery—the payment of \$3,000 for a franchise granting the East St. Louis Interurban Railway company the right to lay tracks on certain streets of the city, and the payment of \$3,000 for a franchise granting the Alton and Southern the right to cross certain streets.

Six members of the city council shared in the division of the first \$3,000, according to the confession, and four members in that of the second \$3,000. Both bribes were paid in 1902, it is charged.

OPPOSE SUTHERLAND BILL

Locomotive Firemen and Enginemen Adopt Resolution.

Washington, June 28.—The Brotherhood of Locomotive Firemen and Enginemen in annual session here went on record in opposition to the workmen's compensation bill introduced by Senator Sutherland of Utah.

A resolution was adopted opposing the measure on the ground that if enacted into law it would virtually nullify the existing employers' liability act. The Sutherland bill would establish a uniform rate of compensation for injuries.

PERRY'S FLAG IS REFUSED

Toledo Museum Officials Averse to Relinquishing Banner.

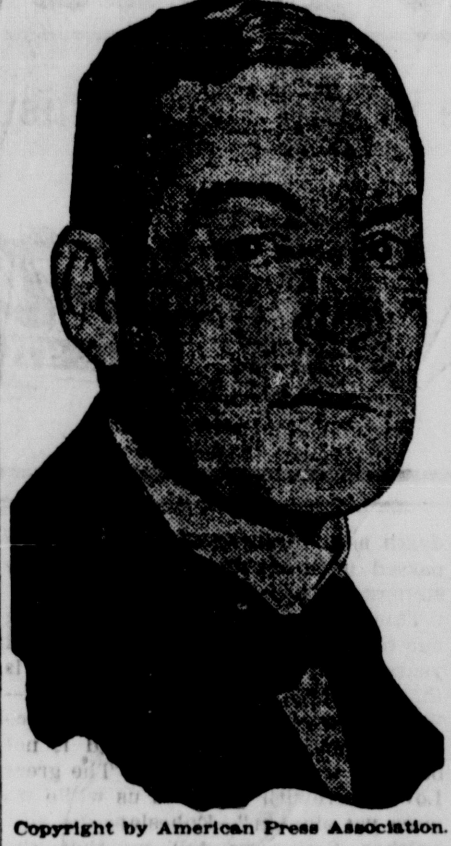

Toledo, O., June 28.—Officials of the Toledo Museum of Art refused to deliver to Ensign Lowery, sent from Annapolis by Secretary of the Navy Daniels, the Commodore Perry flag, bearing the inscription "Don't give up the ship."

Art museum directors and the local Perry committee have wired their congressmen to use their influence to have the flag remain in Toledo, as ordered originally.

Collision Fatal to One.

Toledo, O., June 28.—One man was killed and fifteen were injured, many of them fatally, when a Pennsylvania passenger train crashed head on into a work train at Woodville, twelve miles east of Toledo.

ROBERT L. OWEN.
Has Charge of Currency Measure in the Senate.

Copyright by American Press Association.

EXPECT VIEWS OF EXPERTS

Open Hearings on Currency Bill to Begin Next Week.

Washington, June 28.—Open hearings on the administration currency bill will begin late next week before the senate banking committee.

The hearings are expected to bring out expert views from business men, bankers and students of finance.

Senator Owen declared that under no circumstances would the federal reserve board be increased or representation be given to the banking interests.

THREE GIRLS AND PHYSICIAN DROWN

Man Gives His Life Trying to Save the Others.

Cassville, Wis., June 28.—Dr. R. A. Kinney of Lancaster gave his life in a vain attempt to save three young women who were thrown into the river from a rowboat four miles from this village. The young women were: Myrtle Judd, twenty-two years old; Nora Edwards, nineteen years old; and Helena Godfrey, eighteen years old.

All were residents of Lancaster. They and Mr. and Mrs. Kinney were members of a party of about twelve that had gone into camp on the shore of the Mississippi river.

Dr. and Mrs. Kinney were sitting on the shore when the girls started out in a rowboat. Suddenly it overturned and all were thrown into the water.

The doctor jumped in and swam to the point where they were struggling. He seized one and started toward the shore.

He sank before he had covered the distance. In the meantime the other two young women also had gone down.

EXPLAINS DISSOLUTION PLAN

Agreement Between Government and Union Pacific Expected.

Washington, June 28.—The latest plan for the dissolution of the Union Pacific merger was discussed at the cabinet meeting.

Attorney General McReynolds, who has been considering the new proposals for dissolution with several other cabinet members, is said to have explained the plan in detail to President Wilson.

Officials still seem hopeful of an agreement between the government and the railroad before July 1, although no official announcement was forthcoming.

MAY CONTINUE STRIKE PROBE

Plans to Be Considered by Senate Committee on Monday.

Washington, June 28.—Plans for a continuance of the West Virginia strike investigation will be considered at a meeting of the special senate committee Monday.

Senator Swanson has called the committee together to consider testimony thus far secured and determine what additional witnesses should be heard.

WIFE'S PLEA IN VAIN.
Lincoln, Neb., June 28.—Mrs. Arlie Johnson in federal court made a passionate plea to save her husband, Harry Johnson, after he had pleaded guilty to violating the Mann white slave law, Johnson was sentenced to a year and a day in the Leavenworth, Kan., prison.

Void.
Take five, add nothing, add one, add five hundred and the answer is nothing. How is it done?

HEAT NO BAR TO WORK IN CONGRESS

President Insists on Action, Comfort or No Comfort.

PUSHING CURRENCY BILL.

Wilson Says It Was Hot Weather When Democratic Party Made Its Promises, and They Must Be Kept In Hot Weather—Turning the Tables on Payne.

By ARTHUR W. DUNN.
Washington, June 28.—[Special.]—President Wilson has been unable to see what the hot weather has to do with congressional work. That is, he doesn't see why the fact that hot weather prevails in Washington should prevent needed currency legislation.

"There seems to be no reason why physical discomforts should stop congress from doing its duty" is the way he puts it to the men who have made that excuse.

A year ago it was very hot in Baltimore, but the Democrats in national convention declared that the country would be "freed from panics and consequent unemployment and business depression by such a systematic revision of our banking laws as will render temporary relief in localities where such relief is needed, with protection from or domination by what is known as the money trust."

Somewhat indefinite.
Like many platform declarations, the words quoted are not very definite, but indicate a necessity for legislation. The real positive declaration is against the Aldrich bill for the establishment of a central bank. Perhaps the real differences between the so-called Aldrich plan and that finally worked out by the party in power will not be so very great when action is taken.

But, no matter what indirection may be found in the platform, the intent was to show that present banking laws were inadequate and that they should be amended. To that promise the president intends to hold his party, just as he held it in regard to tariff legislation. He will have to be "shown" more reasons for abandoning currency legislation than have been so far presented if he consents that the session adjourns without action.

What He Can Do.

Congressman Seno Payne of New York, during his long service in congress has been much of the time in the majority and most of the time he has been one of the five men who ran the house. So when he makes frantic appeals for rights of the minority, for so many years ignored by himself and fellow Republicans, it excites a loud guffaw. Over something of little importance the other day Payne said: "What can a poor minority member do? He is not a member of the Democratic caucus, and he cannot protest there."

To which John Fitzgerald replied, "The members of the poor minority can properly spend their time in offering thanks to Divine Providence that the people in their supreme wisdom had placed the government in the hands of the Democratic party."

Not a Baseball Umpire.
When Vice President Marshall has made rulings in the senate and subsequent developments show that he may have been wrong he withdraws all rulings and starts over again. "Had I been advised of all the facts," he said one day, "I would have made a different ruling. Not being a baseball umpire, but simply desiring to rule correctly, I believe I will withdraw all former rulings and hold that the amendment is not in order."

At another time the question of reading petitions and memorials was raised. Senator Jones with his filibuster making the objection. One of the parliamentary sharps who advises the vice president handed Marshall a ruling made back in 1893, when a filibuster was in progress. "I find that Vice President Stevenson once held that reading of these papers was not in order," he said. "Having great respect for that distinguished vice president, I will follow his ruling."

Friend of the West.
Senator Fall of New Mexico took occasion in the senate recently to acknowledge the friendship and support of Senator Gallinger for western states and western interests. "We of the southwest," said Fall, "know that the New Hampshire senator has always been and is now one of our good friends, although from the east."

And that is true. There has never been a proposition presented to the senate which will aid the west that has not received the hearty support of Senator Gallinger. Long before they were admitted as states Senator Gallinger was one of the supporters of the statehood movement.

"Tom Nelson Page."
The new ambassador to Italy is an author of note, a Virginia gentleman, a clubman and yet one of the most unassuming men one could meet anywhere. To his friends he is "Tom Nelson Page." He is a member of the most exclusive clubs, yet he is just as much at home in the Press club as anywhere else and frequents that modest headquarters as much as he does other resorts. Every newspaper man in Washington was glad to see Tom Nelson Page land that job at Rome.

They've Lost the Key.
In Venice there is a cafe which has been open day and night for one hundred and fifty years.

GEORGE VON L. MEYER.
Will Look Into Management of New Haven Lines.

© by American Press Association.

WILL PROBE ROAD'S AFFAIRS

Alleged Mismanagement Exists on New Haven Lines.

New York, June 28.—The subcommittee of the protective committee recently organized by New England stockholders of the New York, New Haven and Hartford railroad to inquire into charges of alleged mismanagement of that property conferred here with the executive committee of the railroad.

It was indicated after the meeting that merely a beginning had been made on what was likely to prove a lengthy inquiry.

George von L. Meyer of Boston, chairman, headed the subcommittee, while the railroad was represented by President Charles S. Mellen, J. P. Morgan, William Rockefeller, Samuel Rea, J. S. Hemingway, Edward Milligan, Charles F. Brooks, S. W. Winslow and Theodore N. Vail.

MONTANA WOOL CLIP SHOWS FALLING OFF

Settling of Country Compels Reduction of Herds.

Lewistown, Mont., June 28.—The first wool clip to arrive here this season came in from Flatwillow, but the owner could find no sign of a market and shipped it to a wool warehouse company at Chicago, to be stored until conditions change.

All the growers have been industriously reducing their bands of sheep for a year past and the clip of Fergus county, for years the banner wool county of Montana, will probably be cut in two this season.

This result is not entirely due to the expectation of lower prices because of the proposed removal of the tariff, but largely to the increased cost of production, following the disappearance of the open range and the rapid increase in land values as a result of railway building and the rapid settlement of the country.

While the outlook for wool is not encouraging the prospect for the wheat crop has never been so bright.

FIVE DEATHS IN MILWAUKEE

Ten of Forty Prostrations May Prove Fatal.

Milwaukee, June 28.—Five deaths, forty prostrations, ten of which may prove fatal and twenty-five of which were severe, is the toll of the excessive heat wave in Milwaukee.

The official figures showed the mercury at 95 at 2 p. m. The excessive heat still prevails and there is no assurance of relief.

Colonel A. G. Weissert, seventy years old, past commander-in-chief of the Wisconsin G. A. R., was overcome while in his office and is in a critical condition.

HANGS HIM TO COAL CHUTE

Mississippi Mob Forcefully Takes Negro From Jail.

Lambert, Miss., June 28.—Will Robinson, negro, indicted on a charge of murder, was taken from the county jail at Marks by a mob, brought to the outskirts of Lambert and hanged to a coal chute.

Members of the mob secured the keys to the prison by forcing the door to a safe in the sheriff's office. Robinson was accused of the killing of a lumberman named Rimes and his son.

STRIKER SLAIN.
Nashville, Tenn., June 28.—Striking plumbers and strikers clashed here and Oly Kiser, a striker, was shot dead. Clarence Kramer, a strikebreaker, is suffering from a flesh wound in the shoulder. Three arrests were made in connection with the killing.

VETERANS MARCH AT GETTYSBURG

JOHNSON TO SAIL SUNDAY

Negro Pugilist Shows Canadian Authorities Tickets.

Montreal, June 28.—Jack Johnson, the negro pugilist, accompanied by his white wife, Lucile Cameron Johnson, is booked to sail for Havre on the Allen line steamer Corinthian Sunday morning.

Canadian immigration officials located Johnson, to take summary deportation action should he fail to comply with the restrictions of the immigration laws.

The negro pugilist in response to a demand of the officials produced a through ticket to Havre, purchased in Chicago. By this bit of strategy Johnson tied the hands of the Canadian immigration authorities. They are powerless to act further than to see that he leaves the country on the ship on which he is booked to sail.

Tries Monoplane and Dies.

Chalons-sur-Marne, France, June 28.—The French aviator, Maurice T. Foulquier, while testing a monoplane for the first time, fell from a height of 250 feet and was killed. Foulquier had been accustomed to a biplane.

DIGS UP GOLD IN STREET

Dust and Nuggets Worth \$500 and Skeleton Unearthed.

San Bernardino, Cal., June 28.—Two pots of gold and a skeleton were unearthed here by G. W. Tyler, while conducting street grading operations. The gold, in dust and nuggets, was worth about \$500. The skeleton was believed to be that of some ancient Indian chief.

SENATORS SCORE NEUTRALITY LAW

Present Revolt in Mexico Is Subject of Discussion.

ATTACKS EXISTING POLICY

Senator Fall of New Mexico Asks for Repeal of Neutrality Resolution of the Last Congress—Senator Bacon Says Solution of Mexican Situation Lies in White Men of the Republic Taking Up Arms to Establish Order.

Washington, June 28.—A change in the attitude of the United States toward the warring factions in Mexico was urged in the senate, with the result that the foreign relations committee of that body is to take up the question immediately.

Senator Fall of New Mexico attacked the present policy and asked for the repeal of the so called "neutrality" resolution of the last congress.

Under this authority, he said, arms were permitted to go across the border to the Huerta faction, but were prevented by the armed forces of the United States from going to the factions opposed to Huerta.

Senator Fall praised the Wilson administration for refusing to recognize what he termed the "assassins of the president of Mexico" as the established government in the republic.

His speech brought a response from Senator Bacon, chairman of the foreign relations committee, that was regarded by some as voicing the attitude of the administration.

Senator Bacon said the solution for the present difficulties in Mexico lay in the white men of the republic, constituting the educated classes, taking up arms to establish order.

For the United States to attempt to protect her citizens by arms in Mexico meant intervention and occupation probably for all time, he said.

Senator Smith of Arizona in the debate which followed advocated the United States taking possession of Lower California in compensation for Americans killed and American property destroyed in Mexico.

Senator Williams joined in urging the repeal of the "neutrality" resolution. Senator Bacon assured the senate the committee would soon consider the question.

PRESIDENT POSTPONES TRIP

Wilson Is Busy With Union Pacific Merger Dissolution.

Washington, June 28.—President Wilson brushed aside all plans for a week's trip to Cornish, N. H., the summer capital, to examine immediately the tentative agreement reached between Attorney General McReynolds and the railroad attorneys for the dissolution of the Union Pacific merger, to prevent, if possible, the great railroad combination from being thrown into the hands of a receiver.

Unless a method of dismembering the Union Pacific and Southern Pacific satisfactory to the judges of the United States court for the Eighth circuit is submitted by July 1 the United States supreme court has ordered the dissolution of the merger by government receivership.

A supreme effort is being made by the president and attorney general to prevent this drastic alternative by an agreement on a plan adequate to meet the demands of the Sherman anti-trust law and the mandate of the supreme court.

TARIFF BILL IS DELAYED

Work in Senate Impedes Progress of Caucus.

Washington, June 28.—Work in the senate delayed the Democrats of that body in their party conference deliberations on the tariff bill.

When the caucus resumed its sessions it took up again the fight over features of the agricultural products schedule. A demand had been made that all articles be put upon a penalty basis so that the president could have a tariff weapon to use against countries discriminating against the United States.

House Leader Underwood talked briefly with senators over the tariff situation.

Democratic leaders were not able to predict, however, when the bill would be finished by the caucus and prepared for debate before the full senate.

Wielding the axe again for the benefit of the household the senate Democratic caucus determined to put cotton sewing thread on the free list.

Too True.

After our landlord had pocketed the \$30 which we pay monthly for our little apartment he blushed painfully. "Why do you color so?" I asked. "Because I have a rent in my trousers," he murmured.—Exchange.

Denied Credit, Kills Grocer.

Winnipeg, June 27.—J. J. Horrigan, a merchant of Rush Lake, Sask., east of Swift Current, on the main line of the Canadian Pacific, was shot dead by a homesteader, Michael Lovinsky, whose appeals for credit for groceries had been refused.

OIL EXPLOSION FATAL TO FIVE

Six Other Persons Injured and a Dozen Missing.

ACCIDENT ON TANK STEAMER

Two Hundred Tons of Fuel Oil Are Ignited by What Is Believed to Have Been Carelessness of a Machinist's Helper in Carrying Lighted Candle Into the Hold.

New York, June 28.—Two hundred tons of fuel oil on board the steel tank steamer Mohawk, owned by the Standard Oil company, exploded with a terrific roar and a burst of flame while the vessel was at anchor off Tompkinsville, Staten Island, in New York bay, killing five persons and injuring six others.

A dozen more are unaccounted for, but are believed to have been rescued. Two bodies were seen floating in the hold while fireboats were still pouring streams of water into the wrecked steamer. The other three victims probably were blown to pieces.

Carelessness of a machinist's helper was reported to have caused the explosion. Fifty men, including the crew and twenty machinists, who were making repairs preparatory to the Mohawk's departure for Tuxpan, Mex., were on board.

A helper was declared to have dropped a washer into the hold below the fire room. Seeking to recover it he is believed to have carried a lighted candle, which caused combustion among gases generated in the hold.

The explosion was heard for many miles. A 200-foot flash of flame, a column of smoke, the detonation, a volcano of debris and the Mohawk settled aft, while fireboats, wrecking tugs and other harbor craft hurried to the scene from all directions.

A score of men who were blown overboard were rescued unhurt from the water. Others clung to stanchions and rails or huddled in the bow, whence they were dragged to safety on boats.

EXPOSES MUNICIPAL GRAFT

Former Alderman at East St. Louis Admits Bribery.

St. Louis, June 28.—An investigation into alleged municipal irregularities in East St. Louis, Ill., culminated in the publication of a sworn confession of bribery made by Joseph A. Fansler, a former member of the East St. Louis city council.

The confession was made in the presence of Charles Webb, state's attorney of St. Clair county, Illinois, and Curtis A. Betts, a reporter, and was sworn to before a notary public.

The confession of Fansler details two alleged acts of bribery—the payment of \$3,000 for a franchise granting the East St. Louis Interurban Railway company the right to lay tracks on certain streets of the city, and the payment of \$3,000 for a franchise granting the Alton and Southern the right to cross certain streets.

Six members of the city council shared in the division of the first \$3,000, according to the confession, and four members in that of the second \$3,000. Both bribes were paid in 1902, it is charged.

OPPOSE SUTHERLAND BILL

Locomotive Firemen and Enginemen Adopt Resolution.

Washington, June 28.—The Brotherhood of Locomotive Firemen and Enginemen in annual session here went on record in opposition to the workingmen's compensation bill introduced by Senator Sutherland of Utah.

A resolution was adopted opposing the measure on the ground that if enacted into law it would virtually nullify the existing employers' liability act. The Sutherland bill would establish a uniform rate of compensation for injuries.

PERRY'S FLAG IS REFUSED

Toledo Museum Officials Averse to Relinquishing Banner.

Toledo, O., June 28.—Officials of the Toledo Museum of Art refused to deliver to Ensign Lowery, sent from Annapolis by Secretary of the Navy Daniels, the Commodore Perry flag, bearing the inscription "Don't give up the ship."

Art museum directors and the local Perry committee have wired their congressmen to use their influence to have the flag remain in Toledo, as ordered originally.

Collision Fatal to One.

Toledo, O., June 28.—One man was killed and fifteen were injured, many of them fatally, when a Pennsylvania passenger train crashed head on into a work train at Woodville, twelve miles east of Toledo.

ROBERT L. OWEN.

Has Charge of Currency Measure in the Senate.

EXPECT VIEWS OF EXPERTS

Open Hearings on Currency Bill to Begin Next Week.

Washington, June 28.—Open hearings on the administration currency bill will begin late next week before the senate banking committee.

The hearings are expected to bring out expert views from business men, bankers and students of finance.

Senator Owen declared that under no circumstances would the federal reserve board be increased or representation be given to the banking interests.

THREE GIRLS AND PHYSICIAN DROWN

Man Gives His Life Trying to Save the Others.

Cassville, Wis., June 28.—Dr. R. A. Kinney of Lancaster gave his life in a vain attempt to save three young women who were thrown into the river from a rowboat four miles from this village. The young women were: Myrtle Judd, twenty-two years old; Nora Edwards, nineteen years old; and Helena Godfrey, eighteen years old.

All were residents of Lancaster. They and Mr. and Mrs. Kinney were members of a party of about twelve that had gone into camp on the shore of the Mississippi river.

Dr. and Mrs. Kinney were sitting on the shore when the girls started out in a rowboat. Suddenly it overturned and all were thrown into the water.

The doctor jumped in and swam to the point where they were struggling. He seized one and started toward the shore.

He sank before he had covered the distance. In the meantime the other two young women also had gone down.

EXPLAINS DISSOLUTION PLAN

Agreement Between Government and Union Pacific Expected.

Washington, June 28.—The latest plan for the dissolution of the Union Pacific merger was discussed at the cabinet meeting.

Attorney General McReynolds, who has been considering the new proposals for dissolution with several other cabinet members, is said to have explained the plan in detail to President Wilson.

Officials still seem hopeful of an agreement between the government and the railroad before July 1, although no official announcement was forthcoming.

MAY CONTINUE STRIKE PROBE

Plans to Be Considered by Senate Committee on Monday.

Washington, June 28.—Plans for a continuance of the West Virginia strike investigation will be considered at a meeting of the special senate committee Monday.

Senator Swanson has called the committee together to consider testimony thus far secured and determine what additional witnesses should be heard.

WIFE'S PLEA IN VAIN.

Lincoln, Neb., June 28.—Mrs. Arlie Johnson in federal court made a passionate plea to save her husband, Harry Johnson, after he had pleaded guilty to violating the Mann white slave law. Johnson was sentenced to a year and a day in the Leavenworth, Kan., prison.

VOID.

Take five, add nothing, add one, add five hundred and the answer is nothing. How is it done?

HEAT NO BAR TO WORK IN CONGRESS

President Insists on Action, Comfort or No Comfort.

PUSHING CURRENCY BILL.

Wilson Says It Was Hot Weather When Democratic Party Made Its Promise, and They Must Be Kept in Hot Weather—Turning the Tables on Payne.

By ARTHUR W. DUNN.

Washington, June 28.—[Special.]—President Wilson has been unable to see what the hot weather has to do with congressional work. That is, he doesn't see why the fact that hot weather prevails in Washington should prevent needed currency legislation. "There seems to be no reason why physical discomforts should stop congress from doing its duty" is the way he puts it to the men who have made that excuse.

A year ago it was very hot in Baltimore, but the Democrats in national convention declared that the country would be "freed from panics and consequent unemployment and business depression by such a systematic revision of our banking laws as will render temporary relief in localities where such relief is needed, with protection from or domination by what is known as the money trust."

Somewhat Indefinite.

Like many platform declarations, the words quoted are not very definite, but indicate a necessity for legislation. The real positive declaration is against the Aldrich bill for the establishment of a central bank. Perhaps the real differences between the so called Aldrich plan and that finally worked out by the party in power will not be so very great when action is taken.

But, no matter what indirection may be found in the platform, the intent was to show that present banking laws were inadequate and that they should be amended. To that promise the president intends to hold his party, just as he held it in regard to tariff legislation. He will have to be "shown" more reasons for abandoning currency legislation than have been so far presented if he consents that the session adjourns without action.

What He Can Do.

Congressman Sereno Payne of New York, during his long service in congress has been much of the time in the majority and most of the time he has been one of the five men who ran the house. So when he makes frantic appeals for rights of the minority, for so many years ignored by himself and fellow Republicans, it excites a loud guffaw. Over something of little importance the other day Payne said: "What can a poor minority member do? He is not a member of the Democratic caucus, and he cannot protest there."

To which John Fitzgerald replied, "The members of the poor minority can properly spend their time in offering thanks to Divine Providence that the people in their supreme wisdom had placed the government in the hands of the Democratic party."

Not a Baseball Umpire.

When Vice President Marshall has made rulings in the senate and subsequent developments show that he may have been wrong he withdraws all rulings and starts over again. "Had I been advised of all the facts," he said one day, "I would have made a different ruling. Not being a baseball umpire, I believe I will withdraw all former rulings and hold that the amendment is not in order."

At another time the question of reading petitions and memorials was raised. Senator Jones with his filibuster making the objection. One of the parliamentary sharps who advises the vice president handed Marshall a ruling made back in 1893, when a filibuster was in progress. "I find that Vice President Stevenson once held that reading of these papers was not in order," he said. "Having great respect for that distinguished vice president, I will follow his ruling."

Friend of the West.

Senator Fall of New Mexico took occasion in the senate recently to acknowledge the friendship and support of Senator Gallinger for western states and western interests. "We of the southwest," said Fall, "know that the New Hampshire senator has always been and is now one of our good friends, although from the east."

And that is true. There has never been a proposition presented to the senate which will aid the west that has not received the hearty support of Senator Gallinger. Long before they were admitted as states Senator Gallinger was one of the supporters of the statehood movement.

"Tom Nelson Page."

The new ambassador to Italy is an author of note, a Virginia gentleman, a clubman and yet one of the most unassuming men one could meet anywhere. To his friends he is "Tom Nelson Page." He is a member of the most exclusive clubs, yet he is just as much at home in the Press club as anywhere else and frequents that modest headquarters as much as he does other resorts. Every newspaper man in Washington was glad to see Tom Nelson Page land that job at Rome.

They've Lost the Key.

In Venice there is a cafe which has been open day and night for one hundred and fifty years.

GEORGE VON L. MEYER.

Will Look Into Management of New Haven Line.

© by American Press Association.

WILL PROBE ROAD'S AFFAIRS

Alleged Mismanagement Exists on New Haven Lines.

New York, June 28.—The subcommittee of the protective committee recently organized by New England stockholders of the New York, New Haven and Hartford railroad to inquire into charges of alleged mismanagement of that property conferred here with the executive committee of the railroad.

It was indicated at the meeting that merely a beginning had been made on what was likely to prove a lengthy inquiry.

George von L. Meyer of Boston, chairman, headed the subcommittee, while the railroad was represented by President Charles S. Mellen, J. P. Morgan, William Rockefeller, Samuel Rea, J. S. Hemingway, Edward Milligan, Charles F. Brooker, S. W. Winslow and Theodore N. Vail.

MONTANA WOOL CLIP SHOWS FALLING OFF

Settling of Country Compels Reduction of Herds.

Lewistown, Mont., June 28.—The first wool clip to arrive here this season came in from Flatwillow, but the owner could find no sign of a market and shipped it to a wool warehouse company at Chicago, to be stored until conditions change.

All the growers have been industriously reducing their bands of sheep for a year past and the clip of Fergus county, for years the banner wool county of Montana, will probably be cut in two this season.

This result is not entirely due to the expectation of lower prices because of the proposed removal of the tariff, but largely to the increased cost of production, following the disappearance of the open range and the rapid increase in land values as a result of railway building and the rapid settlement of the country.

While the outlook for wool is not encouraging the prospect for the wheat crop has never been so bright.

FIVE DEATHS IN MILWAUKEE

Ten of Forty Prostrations May Prove Fatal.

Milwaukee, June 28.—Five deaths, forty prostrations, ten of which may prove fatal and twenty-five of which were severe, is the toll of the excessive heat wave in Milwaukee.

The official figures showed the mercury at 95 at 2 p. m. The excessive heat still prevails and there is no assurance of relief.

Colonel A. G. Weissert, seventy years old, past commander-in-chief of the Wisconsin G. A. R., was overcome while in his office and is in a critical condition.

HANGS HIM TO COAL CHUTE

Mississippi Mob Forcibly Takes Negro From Jail.

Lambert, Miss., June 28.—Will Robinson, negro, indicted on a charge of murder, was taken from the county jail at Marks by a mob, brought to the outskirts of Lambert and hanged to a coal chute.

Members of the mob secured the keys to the prison by forcing the door to a safe in the sheriff's office. Robinson was accused of the killing of a lumberman named Rimes, and his son.

STRIKER SLAIN.

Nashville, Tenn., June 28.—Striking plumbers and strike-breakers clashed here and Oly Kiser, a striker, was shot dead. Clarence Kramer, a strikebreaker, is suffering from a flesh wound in the shoulder. Three arrests were made in connection with the killing.

VETERANS MARCH AT GETTYSBURG

JOHNSON TO SAIL SUNDAY

Negro Pugilist Shows Canadian Authorities Tickets.

Montreal, June 28.—Jack Johnson, the negro pugilist, accompanied by his white wife, Lucile Cameron Johnson, is booked to sail for Havre on the Allen line steamer Corinthian Sunday morning.

Canadian immigration officials located Johnson, to take summary deportation action should he fail to comply with the restrictions of the immigration laws.

The negro pugilist in response to a demand of the officials produced a through ticket to Havre, purchased in Chicago. By this bit of strategy Johnson tied the hands of the Canadian immigration authorities. They are powerless to act further than to see that he leaves the country on the ship on which he is booked to sail.

Tries Monoplane and Dies.

Chalons-sur-Marne, France, June 28.—The French aviator, Maurice T. Poulquier, while testing a monoplane for the first time, fell from a height of 250 feet and was killed. Poulquier had been accustomed to a biplane.

DIGS UP GOLD IN STREET

Dust and Nuggets Worth \$500 and Skeleton Unearthed.

San Bernardino, Cal., June 28.—Two pots of gold and a skeleton were unearthed here by G. W. Tyler, while conducting street grading operations. The gold, in dust and nuggets, was worth about \$500. The skeleton was believed to be that of some ancient Indian chief.

Thousands Cheer Grand Army of Pennsylvania.

URGES MEMORIAL TO WOMEN

National Commander-in-Chief Beers

Addresses State Encampment and Advocates Erection of Fitting Testimonial to Women of Civil War Period—General Sickles Will Occupy His Old Headquarters.

Gettysburg, Pa., June 28.—Members of the Grand Army of Pennsylvania in parade on the historical battlefield of Gettysburg were cheered by the thousands of old soldiers already here for the reunion next week. The parading veterans were given salutes from both the blue and the gray.

The encampment of the Pennsylvania Civil War Veterans was in session. The total number of veterans in the Pennsylvania rolls was given as 17,826.

Commander-in-Chief Beers of the Grand Army of the Republic, in addressing the encampment, advocated the erection of a memorial to the women of the Civil War period.

The bronze statue of General Wells of Vermont, near Big Round Top, was completed and will be dedicated on the morning of July 3. General Wells was one of the commanding officers in the action in which General Farnsworth lost his life and the memorial contains a bronze bas relief of the famous charge.

Word has been received from General Daniel E. Sickles that he will have his headquarters at the site of the Rodgers house, the position held by General Sickles when he lost his leg in the famous battle. Here a large tent will be erected by Carr's brigade and reunions will be graced by the presence of the old commander.

AID IN POLICING GROUNDS

Washington Boy Scouts Are Going to Gettysburg.

Washington, June 28.—Boy Scouts of the District of Columbia, who are to aid in policing the grounds at Gettysburg during the celebration of the fiftieth anniversary of the famous battle, reported in full uniform at their headquarters.

Each boy was instructed to be on hand in marching costume, with a canteen and \$5 in money. About sixty boys will be in the squad that will go by train from here.

COAL STRIKE IS ON AGAIN

Negotiations in West Virginia Looking to a Settlement Called Off.

Charleston, W. Va., June 28.—Negotiations looking to a settlement of the proposed strike in the New River coal field July 1, where 15,000 miners are employed, were called off and the call for a general strike was issued and mailed throughout the field by the officials of the United Mine Workers of America.

terviewed Bishop William Quayle last
night as to the reliability of the propo-
sition, as he knew the Bishop had
been one of the speakers in past years.
The bishop gave the bureau the large-
est endorsement saying that they put
on the cleanest possible attractions
and that their dealing with the public
was most satisfactory in every
respect. He said that any city would
profit immensely by having this chautau-
qua and congratulated the city
upon being able to secure this attrac-
tion.

**THE MOST PRECIOUS
TEXT IN THE BIBLE**

How Differently It Reads From
What We Once Supposed!
Says Pastor Russell.

Unintentionally We Read Errors Into
Our Bibles—Our Eyes Were Dimmed
by "Dark Ages" Smoke—The Fog
Lifts—God's Glory Begins to Appear.
The Bible Shines—Its Truth is the
Balm of Gilead—Poor Discouraged
Humanity Needs Just Such a God.
Shortly He Will Wipe Away All
Tears.

PASTOR RUSSELL

Pasadena, Cal.,
June 15.—Pastor
Russell spoke here
this afternoon and
evening. His even-
ing sermon we re-
port. His text was,
"God so loved the
world that He
gave His only be-
gotten Son, that
whosoever believ-
eth in Him should
not perish, but
have everlasting
life." (John 3:16.) He said:

This text by some has been styled
"the most precious text in the Bible."
To read it is to be filled with the
thought of the sin which has marred
God's fair creation. Then comes the
reviving announcement of mercy,
through the Son of God, our Savior,
through a work which He alone could
accomplish for us, a race of sinners
condemned to death.

Forcefully the Pastor pointed out
that once Christian people, even Bible
students, misunderstood this text, and
read it as though it said that God so
loved the world as to keep them from
perishing, in order that the elect few
might look over the battlements of
Heaven and see the non-elect writhing
in torture—unable to perish—forced to
live, that by their sufferings they
might entertain the more fortunate,
who were guaranteed bliss to the full.

What right did we ever have, said
the Pastor, thus to put into the mouth
of our Savior, as our creeds have done,
words which He never uttered—words
which are very untrue—indeed, a blas-
phemy against our Maker!

Light Shines Through the Fog.

We are not faulting our forefathers,
said the Pastor. Had we been in their
places, we would have been as con-
fused as they, and we might have in-
dulged in heretic-burning, etc. And
had they lived in our wonderful day
of great light, knowledge, education,
Bibles, etc., doubtless they would have
had as noble ideas as ourselves re-
specting the prophecies of Christian
and Divine conduct, and Love and
Justice. The Bible tells us that Satan
and his fallen angels are responsible
for those terrible "doctrines of de-
mons," which have given thinking peo-
ple such horror and driven so many
away from God into unbelief.

Let us rejoice in the light of this
better Day. Let us become Bible stu-
dents in the highest sense of the term.
Never before has there been such an
opportunity for knowing the real teach-
ing of God's Book. We have Bibles,
concordances, helps, and general edu-
cation which presents to us study these.
Our forefathers labored against lack
of education, time, Bibles and good ar-
tificial light. Surely the wonders of
our day indicate that the New Day is
upon us, that the sunlight of Messiah's
Kingdom will soon break forth through
every cloud!

What the Word "Perish" Means.

When we think of it, the word "per-
ish" contains not the remotest sugges-
tion of fire or torture. In our igno-
rance we read that meaning into this
and similar texts. Look critically at
our text. It corroborates the account
in Genesis 3, as explained by St. Paul
in Romans 5:12-18. By one man's dis-
obedience sin entered the world, and

death as a result of sin, and so death
passed upon all men, because all are
sinners—by heredity.

This death penalty has been carrying
our race to the tomb for six thousand
years. The Scriptural declaration is
that all these would have perished—
would have had no future existence
any more than the brute—had it not
been for God's compassion. "The great
Love wherewith He loved us while we
were yet sinners."—Ephesians 2:4, 5.

Other Scriptures tell us that the
death of Jesus was a ransom-price, or
price corresponding to the penalty
upon Adam and his race. By provid-
ing an equivalent price for the sin-pen-
alty against Adam, God can be just in
releasing us from the death penalty.

All Saved From Perishing.

The simple proposition of the Bible
is that as Adam and all of his race
legally perished, so they have all been
legally redeemed from that perished
condition—Jesus' death being the Sat-
isfaction-price. Because of this re-
demption the Bible assures us there is
to be a resurrection of the dead, both
of the just and of the unjust.

The Bible further assures us that the
resurrection of mankind must wait un-
til the completion of the Church of
Christ. Then the Second Coming of
Christ will be in order, that He may
exalt His Church with Himself as the
reigning Power, the Spiritual Seed of
Abraham, which God has promised
shall be exalted to glory for the very
purpose of blessing all the families of
the earth—the non-elect—in the glori-
ous Messianic Kingdom.

Had to Laugh.

"I didn't see anything funny in the
story that fellow just told. What made
you laugh so over it?"

"Do you know who he is?"

"No. Who is he?"

"He's the head of our firm."—Life.

Fighting For Truth.

"Fight on, thou brave, true heart,
and falter not, through dark fortune
and through bright. The cause thou
fightest for, so far as it is true, no
farther, but precisely so far, is very
sure of victory."—Carlyle.

Girl Who Wins Prince Will Have Best of All European Thrones

It is natural enough, with the attention that the recent marriage of the Princess Victoria Louise of Prussia to Prince Ernst, the oldest son of the Duke of Cumberland, and the exceedingly interesting political consequences expected from the match have aroused, that the mind of the world should turn to consider other possible royal unions. One need be neither a monarchist nor a snob to take an interest in such a matter as this, as there is something that appeals to the imagination in the wedding of any two young people who have as much that makes for happiness as members of royal houses and who will, moreover, wield an influence, if not a power, that will affect materially those who come near them.

By far the most important of the royal matches that are likely to be made in the next few years is that of the Prince of Wales. The princess who will be fortunate enough to become queen of England will attain the safest of all thrones and will at the same time be elevated to one of the most interesting positions in the world.

It is true that the prince is still so young—he is just nineteen years old this summer—that it is as yet somewhat premature to expect him to take unto himself a wife, but one may be assured that in a good many courts of Europe a close watch is kept on his movements, the slightest gossip about him is treasured up, and a rumor of a visit from him would set a number of young hearts fluttering.

Indeed, already there have been rumors which are perhaps intelligent

PRINCE OF WALES AND PRINCESS ELIZABETH OF ROUMANIA.

forecasts of what will happen a few years hence rather than accurate reports of what has already occurred.

According to the stories, King George and Queen Mary, in looking round for a wife for their eldest son, are looking with favor on the Princess Elizabeth, the daughter of the crown prince of Roumania. She will be nineteen on Sept. 29, so that she is just a little younger than the prince and comes from a family closely connected with the English royal family. Her mother is the Crown Princess Marie, daughter of the English Duke of Edinburgh, who became at the end of his life Duke of Saxe-Coburg-Gotha.

Consequently the Prince of Wales is her second cousin, and in the many intermarriages of European royalty that is perhaps as distant a relationship as any English prince is likely to bear toward his bride when the complications of religion and political expediency are considered. The father of the crown princess was a prince of the house of Hohenzollern before he was elected on April 20, 1886, prince of Roumania, and the mother is Carmen Sylva, whose poetic genius and artistic talent have made her so picturesque a figure in the annals of court life.

On the other hand, it is said that Queen Alexandra, the queen mother, is very anxious that the Prince of Wales should choose as his bride the Princess Tatiana of Russia. She is the second daughter of the czar and was born on May 29, 1897. She is consequently about three years younger than the prince and would be somewhat more suitable to him in point of age than the Roumanian princess. She, too, is a second cousin of the prince. The czar married the Princess Alix of Hesse, who is the daughter of the late Princess Alice, second daughter of Queen Victoria. In this case, however, there is the objection that the czarina has shown a certain weakness in the blood that no one would desire to see passed on to her grandson, who would be some day king of England.

A Bad Joke.
“A famous college president declares that there are no new jokes.”
“Ah, he does, does he?” grimly returned the old codger. “Well, he ought to see the husband my niece has just married and brought home to live on me.”—Judge.

A Damp.
Marion—I showed papa those verses you wrote me, and he seemed pleased. Harry—He did? Marion—Yes. He said he was so glad to see you were not a poet.

HIS QUEER SENSE OF HUMOR.

It Found Relief In Practical Jokes Upon the Clergy.

Some thirty odd years ago a young man came to New York from England (I have forgotten his name), and for a year or so he posed as a very ardent churchman. He had a mania which seemed to be the making of trouble for other people, with no particular object except that and certainly with no advantage to himself, as he very naturally remained “inco.”

As illustrative, he would send out a hundred or more postal cards addressed to as many different plumbers in New York, asking them to call on a certain day, at a given hour, at the residence of the Rev. Dr. Morgan Dix, rector of Trinity church. Another time it would be an array of bakers, and so on. On one occasion he sent invitations to a dozen of the clergy to dine with Dr. Dix on a given date. Imagine the good doctor's consternation when his unexpected guests arrived.

One of his bits of “funny” work, in which he used the name of the late Bishop Jagger, was as follows: Dr. Cornelius B. Swope was the vicar of Trinity chapel, in Twenty-fifth street, at the time, and Dr. Horatio Potter the bishop of New York. Dr. Dix had become so exasperated as hardly to know what to do, and one day he went to consult Dr. Swope and to ask his advice as to what could be done, taking with him one of the cards that he had received. On looking at it Dr. Swope said:

“I recognize that handwriting because I received a card some time ago in the same hand, which I have kept as a curiosity.”

This was the card:

Cincinnati, Ohio.
Dear Cornelius—It is rumored out here that you would like to be a bishop. If this is true please let me know at once. I have great influence with Morg. Dix and will see old Potter about it, so—

If you would like to be a bishop

And with the bishops stand,

A miter on your forehead

And a crozier in your hand,

Please write me immediately. Faithfully yours,

THOMAS JAGGER,

Bishop of Southern Ohio.

New York became rather too “hot” for our friend shortly after that, as the police got on his track, and he disappeared. He turned up later at his old tricks in Pittsburgh, I think, where he was exposed, and I don't remember what became of him.—Rev. Dr. W. W. Holley in Living Church.

Books From Unexpected Places.

Not only art, but literature, has been produced in unexpected places. There was, for instance, Robert Bloomfield, who produced his “Farmer's Boy” while working so hard as a shoemaker (in a garret with five or six others) that he frequently had to carry a hundred lines in his head through lack of leisure to write them down. James Hogg, too, “the Ettrick Shepherd,” wrote his earliest verses while tending his sheep in the Perthshire highlands. And Taylor, “the Water Poet,” combined the very different offices of literary man and Thames waterman.—London Chronicle.

The Third Hand.

How often the little things in life make impressions that linger in our memories long after the larger events are forgotten! Several years ago I was making a visit in a family where there were several daughters. One of the girls brought a hat into the sewing room one morning and prepared to trim it. Before doing anything else she took a hatpin and pinned the hat firmly to her skirts at the knees, so that she had both hands free and held the ribbon and flowers in place with her left hand while she sewed with her right.—Philadelphia North American.

It's Easy to Learn.

Alexander Graham Bell, the inventor of the telephone, hit on his marvelous discovery while studying and while teaching the deaf.

Professor Bell once said, apropos of this fact:

“Yes, we can learn valuable secrets from the most unlikely sources. A Persian poet, famed for his wisdom, was once asked by his king where he had learned his philosophy.

“From the blind, sire,” the poet replied—“from the blind, who never advance a step until they have tried the ground.”—New York Tribune.

A Wonderful Creature.

The polyp is the most remarkable creature on earth. If cut transversely or longitudinally into several parts, each will become a perfect animal. Tremblingly turned inside out and they ate and enjoyed themselves as much as ever. He slit two longitudinally, placed the halves together and united them into two animals. He divided two transversely and created one with two heads. He pushed one down the throat of another, a third down the throat of the second, and thus formed a creature with three heads.

Diamonds and Glass.

The diamond, instead of being a real solid, is a mass of atoms all in rapid and violent motion. The edge of the stone is formed of these moving molecules as well as the body. Now, glass is also made up of moving atoms, though they do not move so rapidly or so violently as the diamond atoms. When the diamond edge, therefore, is applied to the glass surface the diamond atoms drive the glass atoms out of the way and force a passage.

Merely a Microbe.

“Do you believe that love is due to a microbe?”

“I know it is.”

“How do you know?”

“One calls on my daughter four times a week, and she is beginning to fall in love.”—Houston Post.

Partially Successful.

“Didn't I hear you fire something at that yowling cat early this morning?”

“Yes, I threw the confounded alarm clock at it.”

“Hit the beast?”

“No, but I got rid of the alarm clock.”—Boston Transcript.

Work is not a man's punishment. It is his reward and his strength.—George S. End.

Women Officials Aid In Plans to Improve Industrial Welfare

TWO women have recently been appointed to positions of improving conditions in the industrial world. President Wilson has named Mrs. J. Borden Harriman of New York as a member of the industrial commission, the first time that a woman has been appointed to a position of the same character and importance. Miss Mary S. Malone was recently appointed the ten hour law inspector in Delaware under a law passed by the last legislature. She will have jurisdiction over all industries in Delaware that employ females, with the exception of canning factories.

The appointment of Mrs. Harriman is President Wilson's first selection of a woman for an important post under the federal government. President Taft selected Miss Julia Lathrop as head of the newly organized children's bureau shortly before his retirement from office.

The industrial commission is regarded as one of the most important commissions that have recently been cre-

MRS. J. BORDEN HARRIMAN.

ated by congress. It is authorized to hold hearings in any part of the country, to examine witnesses under oath and to do practically everything else necessary to investigate the relations between capital and labor.

Mrs. Harriman has interested herself for a long time in problems of immigration and social welfare work of various kinds. In the last national campaign she was president of the Woman's National Wilson-Marshall organization and made speeches in favor of the Democratic candidates. She is president of the recently organized Babies' Welfare association and is prominent in other benevolent organizations.

The commission to which Mrs. Harriman has been appointed is composed of nine members. While this is the first time that a woman has been a member of this commission, Miss Malone's appointment does not mark the first time that a woman has been the

MISS MARY S. MALONE.

ten hour inspector of Delaware, but on the previous occasion the law was not adequate.

Miss Malone is a graduate of Smith college. She is the first vice president of the People's settlement in Wilmington, Del. Since her graduation eight years ago she has been engaged in sociological work.

“Conditions in Delaware as regards female labor,” said Miss Malone recently, “have long been notoriously bad, and it will be my intention and purpose to better these conditions, to instill a love for the out of doors among the children, to see that proper hours are observed and to promote interest in home life.”

Cautious.

“Now, Sambo,” said the judge, “this is a very serious offense you are charged with. Stealing chickens is bad enough, but breaking into a store and robbing the till of \$30 is worse. Do you want me to appoint a lawyer to defend you?”

“Dat depends on what de lawyer gwine charge fob his sovrices, judge,” replied Sambo. “Ef he's gwine t' git de whole o' dat \$30 Ah don't see what's gwine t' be lef fob me, sub.”—Harper's Weekly.

SEEK UNKNOWN CONTINENT.

Stefansson and Party Off For Land of Eternal Ice.

Vilhjalmur Stefansson, commander of the Canadian naval arctic expedition which will seek the unknown continent that scientists believe exists in the arctic, has started on his journey to the land of eternal winter and ice. Although engaged in this mission for another country, he carried with him the best wishes of American societies and individuals.

Prior to leaving this country the explorer said it was not generally known that, with every condition favorable, he might arrive on the frontiers of the so called unknown continent in a little more than two months. On the other hand, if conditions are unfavorable it is possible that it may be three years before he is heard from again, as he intends to spend that much time in his search before abandoning it. Whatever his fortunes, Dr. Stefansson is confident of returning alive.

The stanch little vessel Karluk, on which the explorer and his party of five are making the trip under the polar stars, was boarded at Nome. The vessel is not equipped with wireless

VILHJALMUR STEFANSSON.

because the equipment necessitated the carrying of eleven tons of extra freight and two additional men who would be of no use except as wireless operators. The Karluk will follow along the 141st meridian, which divides Alaska from Canada.

Within a day's sail is the southern boundary of the unknown continent. Whether it consisted of land or ice Stefansson said he was not prepared to say. He left that to scientists, who have worked out a theory that it must be land.

“The discovery that it was land might be of international importance,” Stefansson said. “We could then claim it under the ancient law of the right of discovery, and it would be annexed to Canada. If we find land we will establish a base of supplies on it before pursuing further investigations. If it be water, we will try to land east and make a base at Land's End on Prince Patrick island. From whatever base we have, we will try to move northward, and in summer travel by boat, in winter by sled. Our greatest danger lies in the possibility of our ship being sunk in summer. If it be crushed in the winter packs the peril is slight, because there is no danger of sinking. We would just walk out. I have little fear of starvation. I have established the fact that caribou and musk ox live throughout those regions and we can subsist on them.”

LIFE'S SHADOWS.

Shadows have an important part to play. One of the aids in distinguishing objects is the difference in brightness. If there were no shadows, but only perfectly diffused light of high intensity, it would be hard to see clearly. That is true of the soul's vision as well as that of the body. We long for the undimmed light, and we bemoan the shadows, and yet it is these last that have given us our clearest vision and taught us our correct estimate of ourselves.

Looked That Way.

“I don't think she'll ever marry him,” said Mrs. Henpeck. “She quarrels with him and is so domineering that—”

“She is?” interrupted Henpeck. “I'll bet they've been secretly married already.”—Philadelphia Press.

The greatest pleasure is the power to give it.

CORROBORATION

Of Interest to Brainerd Readers

For months Brainerd citizens have seen in these columns enthusiastic praise of Doan's Kidney Pills by Brainerd residents. Would these prominent people recommend a remedy that had not proven reliable? Would they confirm their statements after years had elapsed if personal experience had not shown the remedy to be worthy of endorsement? The following statement should carry conviction to the mind of every Brainerd reader.

Mrs. W. F. Bourquin, 920 S. Seventh St., Brainerd, Minn., says: “Doan's Kidney Pills, procured from H. P. Dunn's drug store, were used in my family about two years ago and they made a permanent cure of lumbago and kidney trouble. We publicly endorsed them at that time and since then have advised their use in cases of kidney complaint at every opportunity.”—Adv't.

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

4th of July Fireworks

We have just received a shipment of fireworks put up in boxes containing complete assortments: the smaller sizes selling at \$4.00 and the larger sizes at \$6.50. They are just the thing for the lake or private celebration. Each box has sky rockets, roman candles, pin wheels, serpents, red guns, flower pots etc. Assortments must be taken complete.

See them in the windows

Girl Who Wins Prince Will Have Best of All European Thrones

It is natural enough, with the attention that the recent marriage of the Princess Victoria Louise of Prussia to Prince Ernst, the oldest son of the Duke of Cumberland, and the exceedingly interesting political consequences expected from the match have aroused, that the mind of the world should turn to consider other possible royal unions. One need be neither a monarchist nor a snob to take an interest in such a matter as this, as there is something that appeals to the imagination in the wedding of any two young people who have as much that makes for happiness as members of royal houses and who will, moreover, wield an influence, if not a power, that will affect materially those who come near them.

By far the most important of the royal matches that are likely to be made in the next few years is that of the Prince of Wales. The princess who will be fortunate enough to become queen of England will attain the safest of all thrones and will at the same time be elevated to one of the most interesting positions in the world.

It is true that the prince is still so young—he is just nineteen years old this summer—that it is as yet somewhat premature to expect him to take unto himself a wife, but one may be assured that in a good many courts of Europe a close watch is kept on his movements, the slightest gossip about him is treasured up, and a rumor of a visit from him would set a number of young hearts fluttering.

Indeed, already there have been rumors which are perhaps intelligent

PRINCE OF WALES AND PRINCESS ELIZABETH OF ROUMANIA.

forecasts of what will happen a few years hence rather than accurate reports of what has already occurred.

According to the stories, King George and Queen Mary, in looking round for a wife for their eldest son, are looking with favor on the Princess Elizabeth, the daughter of the crown prince of Roumania. She will be nineteen on Sept. 20, so that she is just a little younger than the prince and comes from a family closely connected with the English royal family. Her mother is the Crown Princess Marie, daughter of the English Duke of Edinburgh, who became at the end of his life Duke of Saxe-Coburg-Gotha.

Consequently the Prince of Wales is her second cousin, and in the many intermarriages of European royalty that is perhaps as distant a relationship as any English prince is likely to bear toward his bride when the complications of religion and political expediency are considered. The father of the crown princess was a prince of the house of Hohenzollern before he was elected on April 20, 1896, prince of Roumania, and the mother is Carmen Sylva, whose poetic genius and artistic talent have made her so picturesque a figure in the annals of court life.

On the other hand, it is said that Queen Alexandra, the queen mother, is very anxious that the Prince of Wales should choose as his bride the Princess Tatiana of Russia. She is the second daughter of the czar and was born on May 29, 1897. She is consequently about three years younger than the prince and would be somewhat more suitable to him in point of age than the Roumanian princess. She, too, is a second cousin of the prince. The czar married the Princess Alix of Hesse, who is the daughter of the late Princess Alice, second daughter of Queen Victoria. In this case, however, there is the objection that the czarina has shown a certain weakness in the blood that no one would desire to see passed on to her grandson, who would be some day king of England.

A Bad Joke.

"A famous college president declares that there are no new jokes."
"Ah, he does, does he?" grimly returned the old codger. "Well, he ought to see his husband my niece has just married and brought home to live on me."—Judge.

A Dampier.

Marion—I showed papa those verses you wrote me, and he seemed pleased. Harry—He did? Marion—Yes. He said he was so glad to see you were not a poet.

HIS QUEER SENSE OF HUMOR.

It Found Relief in Practical Jokes Upon the Clergy.

Some thirty odd years ago a young man came to New York from England (I have forgotten his name), and for a year or so he posed as a very ardent churchman. He had a mania which seemed to be the making of trouble for other people, with no particular object except that and certainly with no advantage to himself, as he very naturally remained "incog."

As illustrative, he would send out a hundred or more postal cards addressed to as many different plumbers in New York, asking them to call on a certain day, at a given hour, at the residence of the Rev. Dr. Morgan Dix, rector of Trinity church. Another time it would be an army of bakers, and so on. On one occasion he sent invitations to a dozen of the clergy to dine with Dr. Dix on a given date. Imagine the good doctor's consternation when his unexpected guests arrived!

One of his bits of "funny" work, in which he used the name of the late Bishop Jagger, was as follows: Dr. Cornelius B. Swope was the vicar of Trinity chapel, in Twenty-fifth street, at the time, and Dr. Horatio Potter the bishop of New York. Dr. Dix had become so exasperated as hardly to know what to do, and one day he went to consult Dr. Swope and to ask his advice as to what could be done, taking with him one of the cards that he had received. On looking at it Dr. Swope said:

"I recognize that handwriting because I received a card some time ago in the same hand, which I have kept as a curiosity."

This was the card:

Cincinnati, Ohio.
Dear Cornelius—It is rumored out here that you would like to be a bishop. If this is true please let me know at once. I have great influence with Morg. Dix and will see old Potter about it, so—

If you would like to be a bishop

And with the bishops stand,

A miter on your forehead

And a crozier in your hand,

please write me immediately. Faithfully yours,

THOMAS JAGGAR,

Bishop of Southern Ohio.

New York became rather too "hot" for our friend shortly after that, as the police got on his track, and he disappeared. He turned up later at his old tricks in Pittsburgh, I think, where he was exposed, and I don't remember what became of him.—Rev. Dr. W. W. Holley in Living Church.

Books From Unexpected Places.

Not only art, but literature, has been produced in unexpected places. There was, for instance, Robert Bloomfield, who produced his "Farmer's Boy" while working so hard as a shoemaker (in a garret with five or six others) that he frequently had to carry a hundred lines in his head through lack of leisure to write them down. OLD FOLKS FIND NEW REMEDY RELIEVES ALL KIDNEY MISERIES

Drives Rheumatic Pains Away, Relieves Backache and Bladder Disorders After a Few Doses are Taken

Sleep disturbing bladder weaknesses, backache, rheumatism, and the many other kindred ailments which so commonly come with declining years, need no longer be a source of dread and misery to those who are past the middle age of life.

The new discovery, Hindipo, relieves all such disorders because it removes the very cause of the trouble. It soaks right into the kidneys, through the walls and linings; cleans out the little filtering glands and cells, and gives the kidneys new strength to do their work properly.

It neutralizes and dissolves the poisonous uric acid substances that lodge in the joints and muscles, causing rheumatism; and makes the kidneys filter and sift out all the poisonous waste matter from the blood and drive it out of the system.

It matters not how old you are or how long you have suffered. Hindipo is so prepared that it is practically impossible to take it into the human system without results. You will find it different from all other remedies. There is nothing else on earth like it. It starts to work immediately and more than a few doses are seldom required to relieve even the most chronic, obstinate case.

Important Diplomatic Posts Are Filled By President Wilson

ALL the nation has eagerly awaited announcement of the personnel of the new diplomatic corps under President Wilson and the Democratic administration. The first important appointment was that of Walter H. Page as ambassador to England. Recently, however, the president has made other appointments. Thomas Nelson Page of Virginia has been named ambassador to Italy. William E. Gonzales, editor of the Columbia (S. C.) State, has been named minister to Cuba. Pleasant A. Stovall, editor of the Savannah (Ga.) Press and a member of the legislature of his state, has been appointed minister to Switzerland. Announcement of the filling of other important diplomatic posts is awaited with much interest.

Three of the men recently named have been editors, and the fourth, Thomas Nelson Page, has always earned his living with his pen. Walter H. Page was born in Cary, N. C., in 1855. He was educated in Virginia and then moved to New York city. He is a member of the publishing firm of Doubleday & Co. and was formerly an editor in turn of the Forum, the Atlantic Monthly, the World's Work and for a time was engaged on the staff of the New York Evening Post.

Thomas Nelson Page is not related to Walter H. He likewise was born in the south and was educated in Virginia. He began writing stories for the magazines in 1887, but his name did not become conspicuous in literature until 1893, when "Meh Lady" was published serially in one of the leading magazines. It later had a large circulation in book form and laid the foundation for the competency Mr. Page has since earned with his pen. He is a member of the American Academy of Arts and Letters.

William E. Gonzales is editor of the Columbia (S. C.) State and owns other newspapers in the Carolinas. He is peculiarly adapted for the Cuban post, his father having lived in that country. Mr. Gonzales was one of the first editors in the south to support Mr. Wilson when he was first spoken of as the Democratic nominee for the presidency and aided materially in bringing about his nomination and election. There is perhaps no man in America better fitted for the Cuban post, and the announcement of his appointment was received with pleasure by officials in Havana and throughout Cuba.

Pleasant A. Stovall, another southern newspaper man, was an ardent supporter of President Wilson in the pre-nomination and pre-election campaigns. He is one of the best known and most influential men in Georgia.

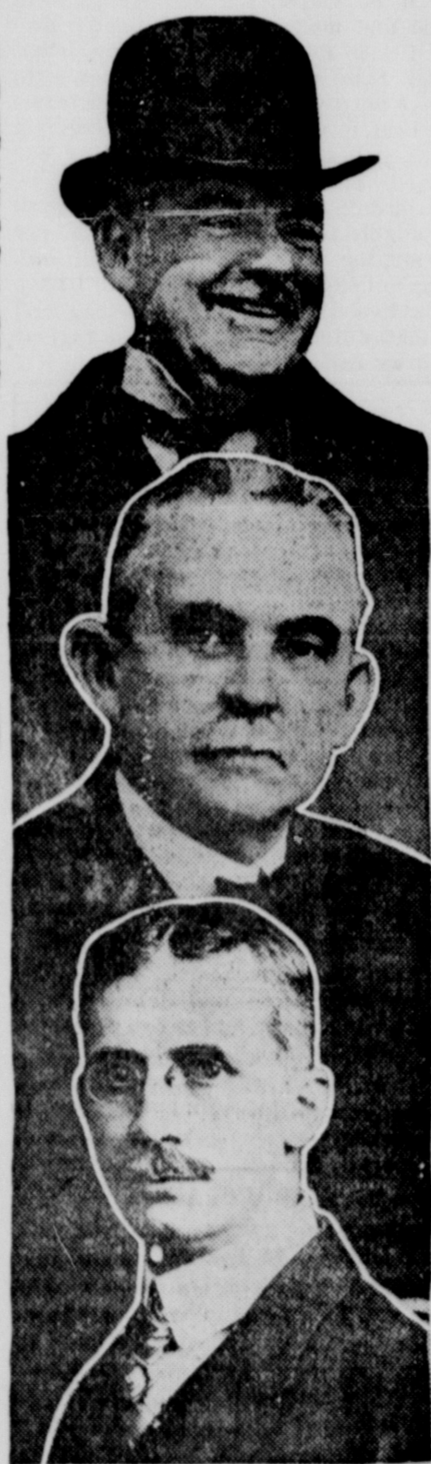

Photo of Page @ 1913, by American Press Association.

THOMAS NELSON PAGE (TOP), PLEASANT A. STOVALL (CENTER), AND WILLIAM E. GONZALES (BOTTOM).

At the time of his appointment as minister to Switzerland he was a member of the lower branch of the Georgia legislature and has resigned in order to accept the place. Three years ago Mr. Stovall was a supporter of Thomas L. Watson in his attack upon Charles D. Edwards in the course of the latter's successful campaign for a seat in congress.

Wages and Salary.

Gabe—What is the difference between wages and salary? Steve—When a man gets wages he saves a few dollars a week. But when he gets a salary he borrows a few dollars a week.—Cincinnati Inquirer.

BACKACHE IS A DANGER SIGNAL

Kidney Troubles, Bladder Disorders, Rheumatism and Serious Diseases Follow

There are other symptoms, such as pains in the region of the kidneys, nervousness, dizziness, tired and wornout feeling, weak bladder, or urinary troubles which are just as dangerous, for the slightest kidney derangement if neglected, may develop into the deadly Bright's Disease, Dropsy or Diabetes.

It is not only dangerous, but need- less for you to suffer and endure the tortures of these troubles for the new discovery, Hindipo, promptly ends all such misery.

There is no more effective remedy known for kidney, bladder trouble and rheumatism than this new scientific preparation, because it removes the cause. It soaks right into the kidneys through the walls and linings, cleans out the clogged up pores, neutralizes and dissolves the poisonous uric acid and waste matter that lodge in the joints and muscles and cause those terrible rheumatic pains, and makes the kidneys filter the poison from the blood and drives it out of the system.

Three doses of Hindipo a day for a few days is often all that is ever needed to relieve the worst backache or overcome disagreeable urinary disorders and you can take it with the utmost confidence that nothing on earth will so quickly reach the worst case of kidney, bladder trouble or rheumatism.

You will find Hindipo different from all other remedies. It is so prepared that it is practically impossible to take it into the human system without results. An original package costs but a trifle, and all druggists are authorized to return the purchase price if Hindipo should fail in a single case. 50c a box at Johnson's Pharmacy. Money back if not satisfactory.—Advt.

MERCHANTS VS THE DRUMMERS

Baseball Game Scheduled for Sunday Afternoon at 3 P. M. on the 4 Koering Grounds

HAVE AN IMPOSING LINEUP

Turcotte to Pitch for the Merchants, George Anderson to Hurl for the Drummers' Nine

The merchants and the drummers will play at the Koering grounds on Sunday afternoon at 3 o'clock. A good game is promised by President Ed. Anderson. The admission fee is only 10 cents.

The lineup for the merchants is Quinn Parker catcher, W. Turcotte pitcher, Ole Peterson first base, Art Drogseth second base, Ed. Levant third base, Bob Clark shortstop, Cliff Russell left field, B. C. McNamara center field and Oscar Wiberg right field.

The drummers lineup is Art Johnson catcher, George Anderson pitcher, Walter Kunitz first base, Fred Sanborn second base, Frank Reich third base, Leo Manning shortstop, George Weaver left field, Mel Schulstad center field and J. C. Higbe right field.

The teams are reported to be almost evenly matched and a good game may be anticipated.

PAYMENTS ASKED

Fourth of July Committee Wishes all Subscribers to Fund to Pay by Tuesday, July 1

The Fourth of July executive committee begs to notify the public that subscriptions to the fund are payable on or before Tuesday, July 1. Make checks payable to Wm. Nelson, secretary. It is hoped that this reminder will enable the committee to have in hand in cash all the subscriptions made to the Fourth of July fund.

Guaranteed Eczema Remedy

The constant itching, burning, redness, rash and disagreeable effects of eczema, tetter, salt rheum, itch, piles and irritating skin eruptions can be readily cured and the skin made clear and smooth with Dr. Hobson's Eczema Ointment. Mr. J. C. Eveland, of Bath, Ill., says: "I had eczema twenty-five years and had tried everything. All failed. When I found Dr. Hobson's Eczema Ointment I found a cure." This ointment is the formula of a physician and has been in use for years—not an experiment. That is why we can guarantee it. All druggists, or by mail. Price 50c. Pfeiffer Chemical Co. Philadelphia and St. Louis. H. P. Dunn, druggist.—Adv. ttw

\$50 Reward

Fifty dollars (\$50) reward will be paid for information leading to the arrest and conviction of any person shooting insulators on our high tension pole line in the vicinity of Brainerd.

Cuyuna Range Power Company. Adv. t—30513

A Noise From Human Bones.

Among savage nations it is often customary to use human bones for the purpose of making horns, and a terrible screech can be brought out of these awful instruments. The braves in many South American tribes in the vicinity of the Amazon employ these peculiarly constructed horns as instruments of war, playing on them as they enter into conflict and employing their harsh, screeching tones to drown the cries of the wounded and inspire their foes with terror. The chief warriors of the tribe make it one of the main points of their fighting to capture and kill the chosen chiefs of the other side to make horns out of their bones.

Best Laxative for the Aged

Old men and women feel the need of a laxative more than young folks, but it must be safe and harmless and one which will not cause pain. Dr. King's New Life Pills are especially good for the aged, for they act promptly and easily. Price 25c. Recommended by H. P. Dunn, druggist.—Adv. ttw

ATHLETICS WIN, BUSH PITCHING

Washington, June 27.—Washington and Philadelphia divided today's double header, the former winning the first 2 to 0 and the visitors the second 11 to 5. Johnson was at his best in the first and not a visitor got as far as third, and but two as far as second. Brown, too, pitched a fine game. In the second game Hughes and Gallia proved ineffective. The locals batted Houck out of the box in one inning, but Bush finished the game in good style. Harper, a young lefthander and a newcomer from Hackensack, pitched the last three innings for Washington. The Nationals' fielding was erratic, worse than that of the Athletics was sensational. The scores:

First game
Phil. -----0 0 0 0 0 0 0 0—0
Wash. -----1 0 0 1 0 0 0 0—2
Batteries, Brown and Lapp; Johnson and Ainsworth. Umpires, Connolly and McGreevy.
Second game
Phil. -----2 3 0 1 0 4 0 1—11
Wash. -----4 0 0 0 0 0 0 1—5
Batteries, Houck, Bush and Schang; Hughes, Gallia, Harper and Henry, Williams. Umpires, McGreevy and Connolly.

NOTICE TO PROPERTY OWNERS 5TH ST. N.

A meeting of the property owners of Fifth street north will be held in the city council chambers Monday evening June 30th, to view the plans and profile of the pavement to be placed on the street. The curb as now in place is not to grade and therefore must be regraded before the pavement can be placed. You are the people who will pay the bill, so come and state your views on the subject.

ARMORED AUTOMOBILE.

Car Tested in Tripoli by Italians Proves Satisfactory.

Whereas England is known as the mistress of the seas, having a larger and better navy than any other nation, and it is conceded that the Germans have made more progress in developing air craft for military purposes, it remained for Italy to come to the front and build the most modern and up to date armored automobile.

This car is now being tested in Tripoli, where a large number of Italian soldiers are now stationed, and results of

Photo by American Press Association.

ARMORED AUTOMOBILE.

the test have so far been most satisfactory. The car is considered one of the best, and its plates can only be injured by large cannon. It provides space for several men and is equipped with rapid firing guns and telescopes. This automobile is capable of attaining a very high rate of speed and is therefore most valuable to land forces in time of war.

The engine of the machine is a high powered motor and readily climbs the steepest hills, such as are likely to be encountered on the field of battle. The chauffeur as well as the officers find ample protection in this machine and are shielded with the greatest of care.

LITTLE FALLS 12, ST. PAUL JRS. 5

Down River Team Beats the Much Vaunted Northern League Organization from St. Paul

DOMINICK PITCHES GOOD BALL

The Little Saints Were Clearly Outclassed Hurling Three Pitchers Against Little Falls

Little Falls, June 27.—Three Northern League pitchers were used Friday evening in an attempt to stop Little Falls batters and the locals won an easy victory, the score standing 12 to 5 when the game was called at the end of the sixth to allow the visitors to catch a train for Winnipeg. Sutton, Thomas and Clarkner worked on the mound for the Little Saints and all were bumped hard, 13 hits being secured.

Eight errors by St. Paul helped the Little Falls team to run up a big score. Al Dominick pitched fine ball for Little Falls. Only four hits were allowed and all were bunched in the five runs. The Little Saints were clearly outclassed and after seven runs had been made in the first two innings attempted to turn the game into a burlesque affair. The St. Paul manager had his regular players in the lineup.

Score by innings:
Little Falls -----4 3 0 1 2 2—12
St. Paul -----0 0 0 5 0 0—5

Most Children Have Worms

Many mothers think their children are suffering from indigestion, headache, nervousness, weakness, costiveness, when they are victims of that most common of all children's ailments—worms. Peevish, ill-tempered, fretful children, who toss and grind their teeth, with bad breath and colicky pains, have all the symptoms of having worms, and should be given Kickapoo Worm Killer, a pleasant candy lozenge which expels worms, regulates the bowels, tones up the system, and makes children well and happy. Kickapoo Worm Killer is guaranteed. All druggists, or by mail. Price 25c. Kickapoo Indian Medicine Co., Philadelphia and St. Louis.—Adv. ttw

NAMED RECEIVER GENERAL.

Walker W. Vick Fills Important Post in Dominican Republic.

The post of receiver general of the Dominican Republic, to which President Wilson has appointed Walker Whiting Vick, is one of the most important within the gift of the administration. The convention of 1907 between the United States and the Dominican Republic provided for the assistance of the United States in the collection and application of customs revenue of the Dominican Republic imposed upon this government a fiduciary obligation which those who

© 1913, by American Press Association.

WALTER WHITING VICK.

know President Wilson's views felt confident he would meet by appointing one to this most important post in whose ability and integrity he had the greatest confidence.

There are ten custom houses, the Haitian border, a revenue cutter service and the general fiscal affairs of the entire republic under the direct supervision of the receiver general. The custom receipts for the past fiscal year amounted to something over \$3,500,000, and the \$20,000,000 bond issue floated upon the condition the United States would maintain supervision over the collection and application of customs revenues has been reduced about one-half.

There has been marked activity throughout the Dominican Republic since the promulgation of the convention of 1907, and the substantial progress of the republic has focused the eyes of capital all over the world upon this fertile island of some 22,000 square miles. Mr. Vick's remarkable executive ability displayed in the pre-convention campaign of Governor Wilson as well as his record of achievement in the campaign of 1912 and as secretary of the inaugural committee of 1913 gives indication of an administration which should bring fresh laurels to that gentleman.

Yes, She Painted.

Young Gotox (admiring picture in parlor)—Does your sister paint, Margie? Little Margie—Yes, sir; but she's finished now, and as soon as she puts a little powder on she'll be right down.—Chicago News.

Feminine Nerves.

There are nervous women; there are hypernervous women. But women so nervous that the continual rustle of a silk skirt makes them nervous—no, there are no women so nervous as that!

Where to Worship

Christian Scientists services every Sunday at 11 o'clock A. M., Elks hall, Wednesday evening 8 o'clock. All are welcome.

MERCHANTS VS THE DRUMMERS

Baseball Game Scheduled for Sunday Afternoon at 3 P. M. on the 4th Koering Grounds

HAVE AN IMPOSING LINEUP

Turcotte to Pitch for the Merchants, George Anderson to Hurl for the Drummers' Nine

The merchants and the drummers will play at the Koering grounds on Sunday afternoon at 3 o'clock. A good game is promised by resident Ed. Anderson. The admission fee is only 10 cents.

The lineup for the merchants is Quinn Parker catcher, W. Turcotte pitcher, Ole Peterson first base, Art Drogseth second base, Ed. Levant third base, Bob Clark shortstop, Cliff Russell left field, B. C. McNamara center field and Oscar Wiberg right field.

The drummers lineup is Art Johnson catcher, George Anderson pitcher, Walter Kuntz first base, Fred Sanborn second base, Frank Reich third base, Leo Manning shortstop, George Weaver left field, Mel Schulstad center field and J. C. Higbe right field.

The teams are reported to be almost evenly matched and a good game may be anticipated.

PAYMENTS ASKED

Fourth of July Committee Wishes all Subscribers to Fund to Pay by Tuesday, July 1

The Fourth of July executive committee begs to notify the public that subscriptions to the fund are payable on or before Tuesday, July 1. Make checks payable to Wm. Nelson, secretary. It is hoped that this reminder will enable the committee to have in hand in cash all the subscriptions made to the Fourth of July fund.

Guaranteed Eczema Remedy

The constant itching, burning, redness, rash and disagreeable effects of eczema, tetter, salt rheum, itch, piles and irritating skin eruptions can be readily cured and the skin made clear and smooth with Dr. Hobson's Eczema Ointment. Mr. J. C. Eveland, of Bath, Ill., says: "I had eczema twenty-five years and had tried everything. All failed. When I found Dr. Hobson's Eczema Ointment I found a cure." This ointment is the formula of a physician and has been in use for years—not an experiment. That is why we can guarantee it. All druggists, or by mail, Price 50c. Pfeiffer Chemical Co. Philadelphia and St. Louis. H. P. Dunn, druggist.—Advt. tsw

\$50 Reward

Fifty dollars (\$50) reward will be paid for information leading to the arrest and conviction of any person shooting insulators on our high tension pole line in the vicinity of Brainerd.

A Noise From Human Bones.

Among savage nations it is often customary to use human bones for the purpose of making horns, and a terrible screech can be brought out of these awful instruments. The braves in many South American tribes in the vicinity of the Amazon employ these peculiarly constructed horns as instruments of war, playing on them as they enter into conflict and employing their harsh, screeching tones to drown the cries of the wounded and inspire their foes with terror. The chief warriors of the tribe make it one of the main points of their fighting to capture and kill the chosen chiefs of the other side to make horns out of their bones.

Best Laxative for the Aged

Old men and women feel the need of a laxative more than young folks, but it must be safe and harmless and one which will not cause pain. Dr. King's New Life Pills are especially good for the aged, for they act promptly and easily. Price 25c. Recommended by H. P. Dunn, druggist.—Advt. tsw

ATHLETICS WIN, BUSH PITCHING

Washington, June 27.—Washington and Philadelphia divided today's double header, the former winning the first 2 to 0 and the visitors the second 11 to 5. Johnson was at his best in the first and not a visitor got as far as third, and but two as far as second. Brown, too, pitched a fine game. In the second game Hughes and Gallia proved ineffective. The locals batted Houck out of the box in one inning, but Bush finished the game in good style. Harper, a young lefthander and a newcomer from Hackensack, pitched the last three innings for Washington. The Nationals' fielding was erratic, while that of the Athletics was sensational. The scores:

First game
Phil. 0 0 0 0 0 0 0 0 0 0
Wash. 1 0 0 1 0 0 0 0 x—2
Batteries, Brown and Lapp; Johnson and Almsworth. Umpires, Connolly and McGreevy.
Second game
Phil. 2 3 0 1 0 4 0 1 0—11
Wash. 4 0 0 0 0 0 0 1 0—5
Batteries, Houck, Bush and Schang; Hughes, Gallia, Harper and Henry, Williams. Umpires, McGreevy and Connolly.

NOTICE TO PROPERTY OWNERS 5TH ST. N.

A meeting of the property owners of Fifth street north will be held in the city council chambers Monday evening June 30th, to view the plans and profile of the pavement to be placed on the street. The curb as now in place is not to grade and therefore must be regraded before the pavement can be placed. You are the people who will pay the bill, so come and state your views on the subject.

ARMORED AUTOMOBILE.

Car Tested in Tripoli by Italians Proves Satisfactory.

Whereas England is known as the mistress of the seas, having a larger and better navy than any other nation, and it is conceded that the Germans have made more progress in developing air craft for military purposes, it remained for Italy to come to the front and build the most modern and up to date armored automobile.

This car is now being tested in Tripoli, where a large number of Italian soldiers are now stationed, and results of

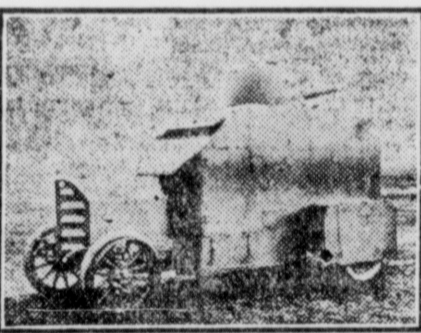

Photo by American Press Association.

ARMORED AUTOMOBILE.

the test have so far been most satisfactory. The car is considered one of the best, and its plates can only be injured by large cannon. It provides space for several men and is equipped with rapid firing guns and telescopes. This automobile is capable of attaining a very high rate of speed and is therefore most valuable to land forces in time of war.

The engine of the machine is a high powered motor and readily climbs the steepest hills, such as are likely to be encountered on the field of battle. The chauffeur as well as the officers find ample protection in this machine and are shielded with the greatest of care.

LITTLE FALLS 12, ST. PAUL JRS. 5

Down River Team Beats the Much Vaunted Northern League Organization from St. Paul

DOMINICK PITCHES GOOD BALL

The Little Saints Were Clearly Out-classed Hurling Three Pitchers Against Little Falls

Little Falls, June 27.—Three Northern League pitchers were used Friday evening in an attempt to stop Little Falls batters and the locals won an easy victory, the score standing 12 to 5 when the game was called at the end of the sixth to allow the visitors to catch a train for Winnipeg. Sutton, Thomas and Clarkner worked on the mound for the Little Saints and all were bumped hard, 13 hits being secured.

Eight errors by St. Paul helped the Little Falls team to run up a big score. Al Dominick pitched fine ball for Little Falls. Only four hits were allowed and all were bunched in the five runs. The Little Saints were clearly outclassed and after seven runs had been made in the first two innings attempted to turn the game into a burlesque affair. The St. Paul manager had his regular players in the lineup.

Score by innings:
Little Falls 4 3 0 1 2 2—12
St. Paul 0 0 0 5 0 0—5

Most Children Have Worms

Many mothers think their children are suffering from indigestion, headache, nervousness, weakness, costiveness, when they are victims of that most common of all children's ailments—worms. Peevish, ill-tempered, fretful children, who toss and grind their teeth, with bad breath and colicky pains, have all the symptoms of having worms, and should be given Kickapoo Worm Killer a pleasant candy lozenge which expels worms, regulates the bowels, tones up the system, and makes children well and happy. Kickapoo Worm Killer is guaranteed. All druggists, or by mail, Price 25c. Kickapoo Indian Medicine Co., Philadelphia and St. Louis.—Advt. tts

NAMED RECEIVER GENERAL.

Walker W. Vick Fills Important Post in Dominican Republic.

The post of receiver general of the Dominican Republic, to which President Wilson has appointed Walker Whiting Vick, is one of the most important within the gift of the administration. The convention of 1907 between the United States and the Dominican Republic provided for the assistance of the United States in the collection and application of customs revenue of the Dominican Republic imposed upon this government a fiduciary obligation which those who

© 1913, by American Press Association.

WALTER WHITING VICK.

know President Wilson's views felt confident he would meet by appointing one to this most important post in whose ability and integrity he had the greatest confidence.

There are ten custom houses, the Haitian border, a revenue cutter service and the general fiscal affairs of the entire republic under the direct supervision of the receiver general. The custom receipts for the past fiscal year amounted to something over \$3,500,000, and the \$20,000,000 bond issue floated upon the condition the United States would maintain supervision over the collection and application of customs revenues has been reduced about one-half.

There has been marked activity throughout the Dominican Republic since the promulgation of the convention of 1907, and the substantial progress of the republic has focused the eyes of capital all over the world upon this fertile island of some 22,000 square miles. Mr. Vick's remarkable executive ability displayed in the pre-convention campaign of Governor Wilson as well as his record of achievement in the campaign of 1912 and as secretary of the inaugural committee of 1913 gives indication of an administration which should bring fresh laurels to that gentleman.

Yes, She Painted.

Young Grotz (admiring picture in parlor)—Does your sister paint, Margie? Little Margie—Yes, sir; but she's finished now, and as soon as she puts a little powder on she'll be right down.—Chicago News.

Feminine Nerves.

There are nervous women; there are hypernervous women. But women so nervous that the continual rustle of a silk skirt makes them nervous—no, there are no women so nervous as that!
